Amaury Bertels : +32 471/820736

On tour:

Sandrine Hooge +32 491/344462 - Céline Dumont +32 479/018267

If the venue cannot meet all of the requirements, please contact us (by mail if possible) to discuss potential adjustments.

Setup : 4h

Disassembly : 1h30

Help needed : 2 persons for the unloading/loading and 1 person for the stage setup (mainly for lights)

Duration of the show: 47 minutes

Max audience: 120 pers.

Minimum age: 3 years old

Important! The whole show is performed on a small, slightly raised and sloping riser (front +/- 40cm, rear 55cm). The floor must be visible to all spectators, most of the show is performed at this height. To ensure a good visibility, please send us a sectional elevation blueprint of your bleachers. Depending on your tiers, we may or may not have to raise our stage (on 9 stage risers (1x2m) provided by you).

Please send a plan of the venue/tiers too.

All our controls are in the back of our riser.

### Stage specifications:

- dimensions: 6x6m (minimum 4x4m)
- (almost) complete darkness
- Black proscenium curtains and drapes (travellers/tabs or single U-shaped track)
- Black floor
- We bring our riser (366cm(width) x 175cm x 55cm(height))

### Light:

Please send a plan of your rigging system.

- male dmx at the back of the riser
- 8 circuits dmx dimmer
- 2 1000W large angle profile lanterns
- 1 1000W profile lantern
- 4 "Schuko" (220v) power cables connecting the dimmer to our spots
- Other power cables for the computer, PA, Pinspots...

### Sound:

- Stereo PA (placed on the floor behind our riser)
- 2 male "Jack" to PA cables (for our soundcard)
- "Schuko" cables to bring the power to the PA and our computer

### Hospitality:

Dressing room with water, fruits, coffee,...
