

Echappée Vieille

Technical requirements

The performance takes place in an open space with our trailer stationed on a street-side, in a park, in a square...

Performance duration: 30min

It is important to be positioned in a relatively calm surroundings without music and away from traffic related perturbations.

Necessary space with spectators: 8m X 10m minimum on a levelled terrain that can be accessed with an automobile carrying a trailer behind (1500kgs). The dimensions' requirements can be adapted (please consult us).

We orient our trailer with respect to the position of the sun such that the spectators are not bedazzled by the sunlight during the shows.

Stage space: 8m X 5m (with DJ set), 8m X 3m (without DJ set)

Trailer's dimensions:

- Length 4m + raking shaft (1.5m)
- Breadth: Closed area 2m and open area of 2.5m
- Height: 3m
- Weight: +/- 1500kg

A secured parking place is necessary for the raking vehicle: VW Transporter. Dimensions: 5m x 1.80m - Height : 1.95m

Electricity: Input of 16Amp in 220V required in the trailer

Spectator capacity: From 50 to 100pax

Seating arrangement for the spectators: We provide cushions for the first row, 4 brewery-style benches shortened to a height of +/-25cm and 4 last row benches of similar style but elevated to a height of 60cm with respect to the industry standard ones.

For the intermediate rows, organisers are requested to arrange around 10 standard brewery-style benches or 50 chairs.

Access to toilets and a green room should be provided within a close proximity from the performance area.

Arrival: 2 hours before the first performance.

This can take longer if the raking automobile and the trailer's access is considered difficult. (Please contact us in this case)

If all the performance setup needs to take place on a space reserved for pedestrians, the organisers are kindly required to assure easy access.

Dismantling: 1 hour

A help from 2 persons is required to assist the decoupled trailer's manoeuvre and during the re-engaging of the same to the raking vehicle.
